

At The International School of Choueifat- Sharjah we take pride in our ability to welcome more than 70 different nationalities to our school and make them all feel at home. There are many opportunities for students to explore and enjoy the international experience at Choueifat, the highlight however, is Cultural Day where students celebrate their different cultures by introducing food, customs, music, dance and many other elements from their culture or country of origin.

The fun filled event kicked off with multiple talented and diverse performances, choreographed and performed by the students for the students months in advance, ranging from traditional dances like the Lebanese Dabke and the Armenian Folk Dance to more modern takes like the Korean K-Pop Dance and the African Dance that made the crowd go wild!

Huge and elaborate tents were decorated in themes that highlight the culture of different countries and hundreds of students and parents enjoyed an afternoon of food and dance from around the world.

In one day you can learn a lot about different cultures and countries like Iranian history, ancient Chinese traditions, Irish Hurling, and at the same time take plenty of photos and have a great time! Students, parents, and teachers enjoyed the fun-filled Cultural Day !
